

PMD/ FindBugs issues error/warnings → Copy & Paste

Solution:

```
public class Product {
    public Product() {
        s.o.p("P1");
    }

    public Product(int id, String name) {
        s.o.p("P2");
    }
}

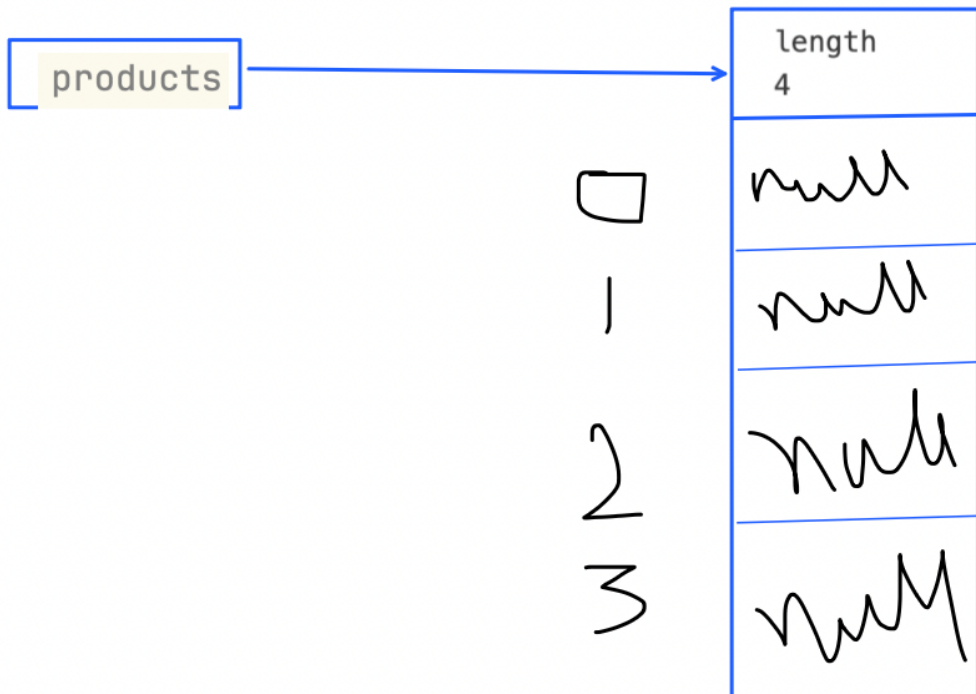

public class Mobile extends Product {
    public Mobile() {
        s.o.p("M1");
    }

    public Mobile(int id, String name, String connect) {
        s.o.p("M2");
    }
}
```

Handwritten annotations and code examples:

- Green arrows and numbers (1, 2, 3) highlight specific parts of the code.
- Blue arrows point from the code to the UML diagram above.
- Code examples: `new Mobile(); //P1 , M1` and `new Mobile(24, "iPhone 16", "5G");`
- Handwritten text: `P1 M2`

```
Product[] products = new Product[4];
```

```
Method[] methods = p.getClass().getMethods();
```

```
getConnectivity(): String ✓  
setConnectivity(String): void  
isExpensive(): boolean ↑ Product  
getId(): int ✓  
setId(int): void  
getName(): String ✓  
setName(String): void  
getPrice(): double ✓  
setPrice(double): void  
isExpensive(): boolean
```

```
for(Method m : methods) {  
    }  
}
```
